THE CITY OF RICHMOND

The city for which this Directory is printed was not in existance three years ago. In September, 1900, the first buildings were erected. At this time, according to the pages of this compilation there is all of 4,000 people here. The city has had a very rapid growth and the next year will witness an excelerated expansion.

The prime incentive for the building of a town here was the building of the Atchison, Topeka & Santa Fe Railway and the location of its terminal here. This company maintains large yards here and has extensive repair shops. Their pay roll includes a host of employees. In the latter part of 1901 the Pacific Coast Oil Co., which is the correspondent of the Standard Oil Co. on this coast, bought a site for a large refinery here and since that time has had a force of several hundred men at work on construction. Their enterprise includes an eight inch pipe line from the oil fields in Kern county to the refinery. It is an immense industry and will be enlarged each year.

Men interested in the Pacific Coast Oil Co. have also bought several hundred acres of water front land adjoining and are building a belt line railroad around the water front, some ten miles long and it is expected that large ware houses, for grain and other produce will be erected, fruit and salmon canneries and other industries. The Southern Pacific have also purchased sufficient land for a bay terminal and will shortly be constructing same. The rails of this company have already been laid into the town. The town has a very bright future.

The course of study in every department of Heald's Business
College is as short, practical, thorough and useful as
it is possible to make it.

Visitors to the College are always welcome.

HEALD'S BUSINESS COLLEGE DIPLOMA

Business Houses needing Bookkeepers, Stenographers, Typewriters,
Cashiers, Clerks, Foreign Correspondents, Telegraphers,
Electricians, Assayers, or Clerical Labor of any Kind,
can be immediately supplied by telephoning

ESTABLISHED FORTY YEARS.

24 Post Street, San Francisco

Stands at the head of Commercial Schools in its Equipment, Faculty, Liberality and Educational Facilities.

A national, international, metropolitan and cosmopolitan institution. The oldest and largest commercial school on the Pacific Coast and among the largest in the United States. Annual enrollment nearly 1000; average daily attendance nearly 500; 70 typewriting machines in the typing department; 30 teachers; individual instruction. Open the entire year, day and evening.

FULL BUSINESS COURSE FOR SIX MONTHS.

LARGE CATALOGUE FREE.

Includes Shorthand, Typewriting; Telegraphy, Single and Double Entry Bookkeeping, Commercial Arithmetic, Business Penmanship, Mercantile Law, Business Correspondence, Business Practice, Railroading, Brokerage, Banking, English Branches, Mechanical Drawing, French, German, Spanish, and everything pertaining to a business education.

HEALD'S SCHOOL OF MINES

PROVIDED WITH ALL NECESSARY INSTRUMENTS, LABORATORIES AND APPLIANCES.

DAY AND NIGHT SESSIONS.

CIVIL AND MINING ENGINEERING

Thorough instruction in mining and surveying much shorter than the university course of four years. The plan adopted therefore is to specialize, so that those who wish can take up one subject only or as many as may be deemed advisable. Six months devoted exclusively to mining engineering will give the average student a full practical knowledge of the subject.

Any course or group of studies may be selected.

The CIVIL ENGINEERING COURSE includes:—Algebra, Geometry, Trigonometry, Draughting, Strength of Materials, Surveying, etc.

The MINING ENGINEERING COURSE includes:—Assaying, Blowpipe Analysis, Mill Construction, Milling, Mining, Geology, Mineralogy, Economic Geology, Surveying.

The METALLURGICAL COURSE includes:-Chemistry, Assaying, Metallurgy, Calorifics.

ELECTRICAL ENGINEERING DEPARTMENT

The study and work in this department cover all the modern applications of electricity. The course is so condensed and divested of superfluities as to bring it within the time limit and means of the average young man who has to make his own way in the world. Each student has to manufacture in the workshop a large proportion of the apparatus. The department is thoroughly equipped with Dynamos, Motors, Measuring Instruments, Wiring Appliances, Wheatstone Bridges, Telegraphic Instruments and Appliances, Electro-Medical Apparatus, Galvanic and Storage Batteries of all kinds, Fluoroscopes, X-Ray closet and a large Laboratory.

Send for Catalogue.
